Dear Senator Proxmire,

Are you aware of the fact that a Proffesor Norman Redlich from New York's University Law school has been hired at $100.00 a day as a legal consultant for the Warren Commission investigating President Kennedys death?

What is disgusting about it, is the fact that of all the lawyers in this country, this one had to be hired and it "stinks." He has been connected with organizations which has been cited as Communist Fronts, as the Emergency Civil Liberty Committee and others as the Youth Committee To abolish the H.U.A.C. Couldn't something be done about honoring a person who could be respect as legal consultant. Not even 2 radio broadcasts, but not on T.V. or in the newspapers.

Sincerely,
Mrs William Van Boftel
